

TABLE OF CONTENTS

Foreword	
Acknowledgments	i
Table of Contents	iii
List of Figures	v
Introduction	vii
Chapter 1–Future Strategic Environment	1
Introduction	1
Political	1
Economic	2
Technological	2
Military	2
Space	2
Foreign Threat	3
Implications	4
Chapter 2–USSPACECOM Vision for 2020	7
Introduction	7
Support of Joint Vision 2010	8
USSPACECOM Vision for 2020	10
Control of Space	11
Global Engagement	12
Full Force Integration	12
Global Partnerships	13
Conclusion	13
Chapter 3–Methodology	15
Chapter 4–Operational Concept Overview	18
Chapter 5–Control of Space	19
Introduction	19
End State	20
Key Objectives	22
Assured Access	22
Surveillance of Space	28
Protection	33
Prevention	38
Negation	42
Summary Assessment	48
Chapter 6–Global Engagement	49
Overview	49

Introduction	50
End State	50
Key Objectives.....	51
Integrated Focused Surveillance	52
Missile Defense	59
Force Application	64
Summary Assessment	71
Chapter 7–Full Force Integration	73
Introduction	73
End State	74
Key Objectives.....	74
Policy and Doctrine	74
People	77
Information	80
Organization	90
Summary Assessment	96
Chapter 8–Global Partnerships	99
Introduction	99
Defining Global Partnerships	99
Development Process	100
End State	100
Assumptions for Achieving Global Partnerships	102
Key Concepts for Partnering	103
Roadmaps for Partnerships	107
Assessing Priorities for Global Partnerships	126
Making Global Partnerships Real	126
Achieving Early Success in Partnering	126
Chapter 9–The Vision: Focused on the Warfighter	129
Chapter 10–The Resource Question	133
Chapter 11–Out of Our Lane (Policies, Treaties, and Agreements)	137
Chapter 12–Summary	141
Acronyms	A1

LIST OF FIGURES

2-1	Joint Vision 2010	7
2-2	Operational Concepts for USSPACECOM's Vision 2020	11
2-3	Control of Space	11
2-4	Global Engagement	12
2-5	Full Force Integration	12
2-6	Global Partnerships	13
3-1	Specified Objectives and Implied Elements	15
3-2	Top-Down and Bottom-Up Approach	16
3-3	Key Capabilities for Surveillance of Space	16
3-4	Assessment Scoring	17
4-1	Operational Concepts for USSPACECOM's Vision 2020	18
5-1	Space Becoming a Key to National Interests	19
5-2	Concepts of Operations for Control of Space	20
5-3	Global Defense Information Network and the Battle Managers	22
5-4	Key Tasks for Assured Access	23
5-5	Assured Access Capabilities and Goals for 2020	24
5-6	Assured Access Roadmap	26
5-7	Assessment of Assured Access	27
5-8	Key Tasks for Surveillance of Space	29
5-9	Surveillance of Space Capabilities and Goals for 2020	30
5-10	Surveillance of Space Roadmap	31
5-11	Assessment for Surveillance of Space	32
5-12	Key Tasks for Protection	34
5-13	Protection Capabilities and Goals for 2020	35
5-14	Protection Roadmap	36
5-15	Assessment of Protection	37
5-16	Key Tasks for Prevention	39
5-17	Prevention Capabilities and Goals for 2020	40
5-18	Prevention Roadmap	40
5-19	Assessment of Prevention	42
5-20	Key Tasks for Negation	43
5-21	Negation Capabilities and Goals for 2020	44
5-22	Negation Roadmap	44
5-23	Assessment for Negation	47
6-1	Operational Concept for Global Engagement	49
6-2	Evolution to Global Engagement	51
6-3	Global Defense Information Network and the Battle Managers	51
6-4	Analyzing Global Engagement	52
6-5	Key Tasks for Integrated Focused Surveillance	53
6-6	Integrated Focused Surveillance Capabilities and Goals FOR 2020	54
6-7	Integrated Focused Surveillance Roadmap	55
6-8	Assessment of Integrated Focused Surveillance	58
6-9	Key Tasks for Missile Defense	60
6-10	Missile Defense Capabilities and Goals for 2020	61
6-11	Missile Defense Roadmap	61

6-12	Assessment of Missile Defense	63
6-13	Key Tasks for Force Application	66
6-14	Force Application Capabilities and Goals for 2020	67
6-15	Force Application Roadmap	68
6-16	Assessment of Force Application	70
7-1	Elements of Full Force Integration	74
7-2	The Concept of Full Force Integration	75
7-3	Roadmap for Policy, Doctrine and CONOPS under Full Force Integration	76
7-4	Roadmap for People	78
7-5	Current Information Structure	81
7-6	Future Information Structure	82
7-7	USSPACECOM Battle Managers	82
7-8	Development of USSPACECOM Battle Managers	83
7-9	The Global Defense Information Network is Central to Battle Management (BM)	84
7-10	Navigation Capabilities and Goals for 2020	86
7-11	METOC/ERM Rolled-Up Capabilities and Goals for 2020	87
7-12	Warning Capabilities and Goals for 2020	88
7-13	Overview of Processes, Structures and Partnerships	91
7-14	USSPACECOM's Structure for Command and Control	92
7-15	Joint Relationships	93
7-16	Integration Options	94
8-1	Analytical Process for Global Partnerships	101
8-2	Organizational Relationships for Global Partnerships	103
8-3	Shaping the Environment for Global Partnerships	106
8-4	Shared Planning Process	106
8-5	Assessing Potential of Partnerships for Control of Space	107
8-6	Roadmap for International Partnerships to Provide Services for the SSN	108
8-7	Roadmap for Commercially Developing Services for the SSN	109
8-8	Roadmap for Partnerships in Protection and Verifying Attacks	110
8-9	Roadmap for Partnering to Identify and Prevent Unauthorized Use of Space	111
8-10	Roadmap for Partnerships to Cover Launch on Demand, Rapid Response, Reconstitution and Repair	112
8-11	Roadmap for Partnering on Global Traffic Control	113
8-12	Roadmap for Partnering on Commercial Satellite Operations	114
8-13	Roadmap for Partnering on Commercial Spaceports (Launch Services)	115
8-14	Partnership Potential for Full Force Integration	116
8-15	Core and Other Elements of Command and Control for Information	116
8-16	Roadmap for Partnering on Support Systems for Command and Control (C2)	117
8-17	Roadmap for Partnering on Communications for Command and Control (C2)	118
8-18	Roadmap for Partnering on Military Satellite Communications	119
8-19	Roadmap for Partnering on Training and Education	120
8-20	Assessing Partnership Opportunities for Global Engagement	121
8-21	Roadmap for Partnering to do Reconnaissance and Surveillance	122
8-22	Roadmap for Partnering to Integrate Commercial Imagery with Military Systems	123
8-23	Roadmap for Partnering to Improve METOC/ERM	124
8-24	Roadmap on Partnerships for Missile Defense Warning	125
8-25	Global Partnerships Priority Assessments	127
12-1	Capabilities, Thrusts and Partnerships to Attain the Vision	142
